Welcome Message

Dear Colleagues,

It is great pleasure to welcome you to the virtual edition of The 4th New Trends in Pediatric Ultrasound Course and Workshop, which will be held on May 15-19, 2022.

The New Trends in Pediatric Ultrasound Course is a national activity that has built a strong reputation in the Kingdom over the last 9 years for its scientific excellence and great attendance.

It is a frontline course that will identify optimal knowledge and address the gaps in Sonography Clinical practices. This course is designed to recognize, identify and be able to apply and interpret pediatric ultrasound examinations and demonstrate its relation from the medical and surgical point of view.

Skills training for Sonographers & Pediatric Radiologists is always part of the course scientific program. Dedicated mentors, tutors and well-known speakers from different specialties will offer their expertise during the lectures and Hands-on video tutorials. Actually, we are promising you what we hope to be a landmark meeting for its innovative structure, quality of the scientific program and hand-on workshop, building on experiences acquired from the previous great New Trends in Pediatric Ultrasound meetings.

On behalf of Organizing Committee, we would like to welcome you all to this great event.
